Suthapalli Rishik

QA Engineer / SDET | Test Automation, Performance & Data Quality

sprishi8020@gmail.com | LinkedIn | GitHub

QA engineer with a data engineering foundation and about one year of experience since joining Polestar Analytics for training. Experienced in Playwright automation, Azure load testing and SQL-based data reconciliation.

Professional Experience

Polestar Analytics | Analyst, full-time | Jun 2026–present

Polestar Analytics | Training period | Dec 2025–May 2026

Selected QA contributions at Polestar Analytics:

• Built JavaScript Playwright tests for a Power Apps forecasting application, scaling to 30+ concurrent browser users. Moved test execution to Azure and cut full-concurrency runtime from about 10 minutes to under 7.

• Used JMeter and Azure Load Testing to benchmark SQL backends at multiple load tiers. Performed UI, regression and release sanity testing.

• Validated and classified 900+ PDFs across multiple templates for an OCR workflow, identifying extraction and formatting edge cases.

• Validated 140+ tables across source, Bronze and Silver layers on a confidential data project. Reconciled counts with SQL, reported discrepancies and verified fixes.

• Tested Excel-based ETL onboarding, including source mapping, Silver cleanse rules, Gold transformation logic and supporting admin modules.

Polestar Analytics | Data Engineer Intern (unpaid) | May–Nov 2025

• Built an Azure Databricks Medallion pipeline using synthetic data, Azure Data Lake, PySpark and Delta Lake. Designed a star schema and delivered Power BI dashboards for customer and promotional analytics.

Technical Skills

QA: Playwright, JMeter, Azure Load Testing, functional and regression testing, defect triage

Languages and databases: JavaScript, TypeScript, Python, PySpark, SQL, SQL Server, Azure SQL

Data and tools: Azure Databricks, Azure Data Lake, Delta Lake, Spark, Power BI, Azure DevOps, Git, SSMS, Excel. Exposure to Microsoft Fabric and Azure Data Factory.

Education & Credentials

B.Tech, Computer Science and Engineering | Amrita School of Engineering, Bangalore | 2020–2024

Microsoft Certified: Azure Data Fundamentals (DP-900) • AWS Academy Cloud Foundations • AWS Academy Introduction to Cloud • NxtWave Introduction to Databases (SQL) • Udemy Python course completion

Conference Research

Diabetic Foot Ulcer Detection via Thermography and Swarm Algorithms in Drone Communication (ICCCNT 2024); Tomato Leaf Disease Detection (INCOFT 2025).
